

Pro CO

Our Pro CO analyzer with alarm has a fast response time and is in a compact water resistant handheld unit. Audible alarm at 10 ppm CO, portable with batteries, easy to operate, reliable and accurate Carbon Monoxide gas analyzation.

- **Features**
- Portable Instrument
- Large LCD Display
- On/Off Switch
- Rugged High Impact Plastic
- Requires Very Little Maintenance
- Low Power Consumption
- Thermal Conductivity Sensor
- Display Accuracy to +/- 5%
- Battery Test Function
- Easy To Operate, Reliable and Accurate

| Specifications: Pro CO Part# 9625 handheld, 9624 panel mount | |
|--|---|
| Range: | 0-100ppm Carbon Monoxide |
| Display Accuracy: | +/- 5% at Constant Temperature and Pressure |
| Sensor Type: | Electrochemical |
| Expected Sensor Life, Room Air: | 60 Months |
| Power: | 9 Volt Battery or 110/230V power option |
| Response Time: | less than 50 seconds to 90% value |
| Operating Temperature: | 41 to 104 Degrees F (5 to 40 Degrees C) will work outside this range with decreased accuracy |
| Storage Temperature: | 14-140 Degrees F (-10 to 60 Degrees C) |
| Operating Humidity | 15 to 90% RH, Non-Condensing |
| Warranty: | 12 Months |
| * All specifications are at ambient / sea level, 77 Degrees F (25 Degrees C) | |
