

AAI DIVE STAGE

PART NUMBER: AAI-DS-A

This standard industry dive stage is fabricated using 1/4" steel angle, which is galvanized afterward to insure durability. This versatile stage has a single lift or double lift points to suit your needs along with slip resistant, heavy gauge steel grating in the floor section for added strength. Diver has a safety chain to close the unit during transport along with two grip handles. This unit is lightweight at only 400 pounds.

Dimensions:

Length: 30"
