## **Dead Man Lift**

**Part#: AAI-595720**

This is the easiest and quickest way to get your crewmember back onboard without the use of a winch. Lifting tackle has a 5:1 purchase, since powerboats generally lack winches, and a triple block with downward facing cam cleat for securing the line.

- Large carabiner snaps allow attachment to Dead Man Lift and vessel
- Includes 100' of 3/8" dacron braid, a vinyl storage bag and instructions
