

Kirby Morgan 57 Helmet

The Kirby Morgan 57 features our revolutionary new SuperFlow 450™ Stainless Balanced Regulator...

The Kirby Morgan 57 Diving Helmet continues the tradition of innovation, providing the highest quality and superior performance that divers have come to expect in a Kirby Morgan product. This helmet features our revolutionary new SuperFlow 450™ Stainless Steel Balanced Regulator. It's machine from a stainless steel casting for the ultimate in performance and reliability. This commercially rated regulator delivers all the breathing gas you need for the most demanding work underwater.

The Kirby Morgan 57 also includes our Quad-Valve™ Exhaust System. It's recommended for diving in biologically contaminated water, when you're properly trained and equipped, using recommended procedures. This new exhaust has exceptionally low exhalation resistance that you must experience to appreciate. Don't confuse the Super-Flow® 450 with a sport diving regulator – it's designed from the ground up strictly for commercial diving. With a rugged extra long adjustment knob and shaft, the SuperFlow® 450 meets the wide range of breathing gas pressures provided by typical low pressure surface-supplied diving compressors. Dive the Kirby Morgan 57 helmet once and you won't want to dive with anything else again.
