

## Aquacom® SSB-2010, 4-channel transceiver (5 Watts Output Power)

Model: SSB-2010, Aquacom SSB 4-channel, voice menu, diver transceiver.

Can be used w/CDK-6.

The Aquacom® SSB-2010 transceiver is a 5 watt, multichannel single sideband underwater telephone designed with Professional Search & Rescue Teams in mind. The Aquacom® SSB-2010 can be configured to operate with virtually any style full face mask (FFM) or mouth mask. With the addition of a CDK-6 Surface Accessory Kit, the Aquacom® SSB-2010 is easily converted into a portable surface station.

Standard features are: Voice Operated Transmitter (VOX), Push-to-talk control (PTT), Squelch, 4 channels, Earphone volumes, Voice menu (the user can adjust the SSB-2010 underwater via the voice menu), removable transducer, and heavy duty design.

This affordable system is tough, powerful, and a must for any serious Search & Rescue Team!
